

Critical Information Summary

Unwired ISP Plan Range

Information about the service

The product is a broadband internet connection provided by Unwired ISP via the Swoop fixed wireless network. It is not a 3G/4G/5G Mobile service, but instead involves an antenna installed on the rooftop of the customer premises, cabled to a router indoors. The service includes access to our technical support service via phone or email.

Requirements and availability

Unwired ISP services are only available to premises that meet a service qualification check. Serviceability is not guaranteed by remote service qualification check. Line-of-Sight (LoS) obstruction may cause your premises to be classed as unserviceable or require additional infrastructure in order to be serviceable. LoS can degrade over time due to new construction, vegetation growth or other obstructions. Unwired ISP is not responsible for issues affecting LoS that are outside of our control.

Bundling

Unwired ISP services are not required to be bundled with any other service or product.

Installation

Unwired ISP requires roof access to install a permanent antenna to connect to Unwired ISP's network. Unwired ISP will also need to install a cable from the roof to your desired router location ("demarcation point") - for example, in a home office. You will need to be in attendance for the installation of Unwired ISP equipment at your premises. Unwired ISP requires a compatible router to be configured with your service details. A router will be supplied to you with your installation.

Minimum term

The Minimum term will depend on the option you select at the time of signup. We offer the following option:

- No minimum term
- 24 Months minimum term
- 36 Months minimum term

Early Termination Fee

An Early Termination Fee of \$450 will apply if the service is terminated within the agreed contract period.

Setup fee

Standard installation fees:

- No minimum term - \$499
- 24 Months minimum term - \$99
- 36 Months minimum term - \$0

If a complex installation is required, e.g. connection requires the installation of a larger than standard antenna, roof mast or additional data outlets etc., this work will be charged on top of the above setup fees. A total install price will be confirmed and agreed to prior to the installation taking place. All plans also include a WiFi router for your premises at no additional charge.

Connection speed

The service speed of your plan is a theoretical maximum. Unwyred ISP wireless connections are residential grade services with no guarantee of consistent speeds. Data transfer speed is dependent on a number of variables beyond our control, including: your local network configuration, infrastructure limitations and environmental conditions.

Priority assistance

Priority assistance is a service to provide the highest level response in the event of service failure. Priority assistance is a service for customers who have, or who are living with someone who has, a diagnosed life-threatening medical condition and whose life may be at risk without access to a fully operational phone service. We cannot offer priority assistance at this time. Should you require this service, you should apply for services through a telecommunications provider who can offer priority assistance. Telstra are a telecommunications provider who offer a priority assistance service.

Metadata Retention
